

Please consider the vast numbers of people (ranging from young to older) who listen to Airl radio (90.1 & 89.5) PLEASE doNOT displace these with LPFM broadcaster programming! This is a unique radio station with music and programming that ranges from edgy rock to worship music that my teenagers love as well as my husband and I!!! It sends an uplifting, and possitive message to it's listeners! What other radio station can say that... others are about drugs, sex and violence!!
